

Pyro **SWEEPER**

STAND ALONE UNIT FIREWORKS SEQUENCER

- 32 channels and up to 160 igniters
- 3 functions: TEST-SIMULATION-FIRE
- 4 sequences: 1-8-16-32 shots/start
- 10 times: 1-10"

Pyro **SWEEPER**

PyroSWEEPER is an easy-to-use electronic unit that lets you create pyrotechnic sequences quickly and safely.

The 32 channels can be managed as single-shot or 8/16/32 blocks.

The unit can drive other 2 ones to reach 96 channels with one setup and one start.

Selected sequence can be displayed with simulation option before starting then calibrated for better performance from 1 to 10 seconds.

Specifications:

- learning in less than 5 minutes
- sequence visual simulation with 32 LED
- sequence division in 1-8-16-32 blocks
- sequence duration from 1 to 10 secs. step 1"
- wiring TEST and fault visualization
- fast connectors
- up to 5 igniters per channel
- start onboard or remote (100m cable reel)
- internal battery (40h continuous work)
- battery charger included
- waterproof and shock resistant case
- expandible up to 3 units (to have 96 chans)
- easy to use
- low cost
